

The background of the entire page is a photograph of a modern, multi-story building with large windows, partially obscured by lush green trees. A semi-transparent purple overlay covers the entire image. Overlaid on this purple background is a repeating pattern of the words 'SCHOLARSHIP', 'MANTHOOD', 'UPLIFT', and 'PERSEVERANCE' in a light, serif font, arranged in a grid-like fashion.

DESIGN AND BRAND GUIDELINES

OMEGA PSI PHI FRATERNITY, INC.

Volume 1.1

Omega Psi Phi Fraternity, Inc. is the first international fraternal organization to be founded on the campus of a historically black college.

Omega Psi Phi was founded on November 17, 1911, at Howard University in Washington, D.C. The founders were three Howard University undergraduates, -- Edgar Amos Love, Oscar James Cooper and Frank Coleman. Joining them was their faculty adviser, Dr. Ernest Everett Just. From the initials of the Greek phrase meaning, "friendship is essential to the soul," the name Omega Psi Phi was derived. That phrase was selected as the motto.

Manhood, Scholarship, Perseverance and Uplift were adopted as Cardinal Principles. On November 23, 1911 in Thirkield Hall, Love became the first Grand Basileus (National President). Omega Psi Phi was incorporated under the laws of the District of Columbia on October 28, 1914.

GEORGIA

Although inspired by the need for - and providing - clarity at low resolutions on the screen, Georgia is a typeface resonant with typographic personality. Even at small sizes the face exudes a sense of friendliness; a feeling of intimacy many would argue has been eroded from Times New Roman through overuse. This is as much testament to the skill of the typeface's designer, Matthew Carter, as it is to any intrinsic quality of the face's design, since the small pixel spaces of the screen can be a harrowing canvas for any type designer. In Georgia, Carter has successfully managed to create a typeface family which combines high legibility with character and charm.

CLEAR SPACE

Respecting the clear-space and minimum size requirements are extremely important. These guidelines have been developed in order to protect the integrity of the logo and should be followed at all times.

CLEAR-SPACE

An appropriate amount of clear-space is necessary around the logo in order to separate the logo from other graphic elements, ensuring the maximum amount of visibility. In the case of the logo, the clear-space minimum is equal to the width of the middle logo seam, as indicated by the letter “X” in the example to the right.

MINIMUM SIZE

A minimum width of 0.5” has been set in order to maintain legibility of all the elements that make up the primary logo. When being scaled down, the secondary logo should never be minimized below 0.5” in width.

MINIMUM SIZE:
0.5”

WORDMARK

The Omega Psi Phi Fraternity wordmark is derived from the primary logo. In situations where the space does not allow for an ideal primary logo fit, the wordmark may be the best alternative.
