IHQ Office COVID-19 Announcement

DECATUR, GA –

Greetings,

I hope this letter finds you and your families doing well and in good health. Here in Georgia, we are experiencing the highest level of COVID-19 cases since the pandemic began. At International Headquarters (IHQ), we have a small office that consists of 21 team members working hard to service your needs. Currently, there are two employees being isolated due to positive COVID-19 test results. We've been working remotely since March with rotational visits to IHQ to perform various tasks. Given the current climate of COVID-19, its projected impact during the holiday season, and my responsibility for the welfare and safety of the team while on the premises, I have suspended rotational visits. The team will only report to the IHQ to perform essential activities or tasks. Once the COVID-19 projections and climate have changed and our comfort level increases, we will re-establish our operational plans.

Please continue to be patient and flexible as we migrate through this pandemic.

Continue to be safe.

John F. Howard | Executive Director
